## WHAT HAS HAPPENED DURING THE WEEK?

### Sports Days

Today and yesterday the senior school has ended a really busy term with fun sports days. Members of the Sixth Form helped organise and run sessions for Key Stage 3 pupils. Zumba, hockey, football and basketball were some of the activities offered..

*“The best experiences are here”*

## Out and About in Cordoba

For their P.E lesson, 6S took a trip down to Asomadilla Park. They enjoyed the long walk followed by a great game of cricket. It was nice to get out of school after a long time without a trip. They thoroughly enjoyed themselves.

Meanwhile, Year 7 took a tough walk up to Las Ermitas and visited the hermitage. The students showed great resilience, teamwork, kindness and good humour. The countryside was absolutely beautiful with all the flowers in bloom and everything still very green. It was a great day out and a great achievement!

## Gene Technology

Y13 Biology students learnt about the Electrophoresis technique, a useful tool for separating DNA molecules. Each student became a genetic technologist and worked with this technique using the bacteriophage lambda DNA.

## 3K Open Air Art Exhibition

The children were thrilled with the compliments they received about their mardi gras masks from members of our school community and other classes who came to visit. Each mask was accompanied by some writing explaining the reasons behind their designs and what the colours represented. They had to reflect upon the success of their finished product and evaluate how it might be improved if they were to do it again.

A gorgeous way to end the day and celebrate our learning in art this term learning about colour and carnival masks.

## Year 11 Debating

*¿Es la inteligencia artificial positiva para la sociedad del siglo XXI?*

Congratulations to our two debating teams, who competed online last weekend in the CDU debate and the European Youth Parliament. They were a credit to the school. Well done to Rosario, Pablo, Antonio, Lucia, Paula and Cristina.

## 8A do 'Our Day Out'

Even after sports day, 8A found the energy to perform 'on the big stage' this week as they premiered their own interpretations of the play they have been reading in class, 'Our Day Out'.

Although the original play was set in 1970's Liverpool in a rundown school, the students successfully managed to provide their own modern twist on the story, using their lives (and inspired by teachers of) the British School of Cordoba.

Students planned a few scenes, prepared the dialogue and stage direction and rehearsed the play. This week we finally enjoyed the result of their hard work!

## Water, Water Everywhere

Year 5 pretended to be water molecules, travelling around various “stations” where water in the world can be found (oceans, plants, animals, soil...)

Everyone’s journeys were different but cyclical. Some of us spent a very long time in some stations (oceans and glaciers!) just like in the real water cycle.

We also set up a water cycle simulator in the classroom and created rain!

## Light and its Amazing Properties, Y5

## Lengua, Y5

Hemos dado la bienvenida a la primavera disfrutando del buen tiempo y el aire libre mientras estábamos en clase de Lengua.

## **Summer Camp Launch**

We are delighted to be able to launch our first Summer Camp programme, in association with ClubsComplete. Starting 28th June.

You can find all information including booking details in the separate documents via Phidias.

## **Staff Notices and Reminders**

Next term we welcome back Ana Sanchez to Year 7 who is returning from her recent maternity leave. We would like to thank Rafa Cabello for all his help and work this year, so far.

Rosa Cabello, Technical Director has started her maternity leave and we are pleased to announce that Jose Elias will be stepping into the Technical Director role, whilst she is away.

Andrés will continue his work with 5M and 6S, teaching Lengua and Rafa will support primary lessons and continue with some Year 7 classes.
