Exam Results 2025

We are delighted to share that this has been another outstanding year for our students, filled with academic success and exciting university offers.

Our second group of International Baccalaureate (IB) graduates, since the programme began in September 2022, achieved a **100% pass rate**. Every one of them secured a place at university, either here in Spain or abroad, marking a proud milestone for our school community.

The group achieved an average score of **32.84 points**, comfortably above the global average of 30.58. This reflects not only their ability and commitment but also the support and encouragement they received from their teachers. Behind the statistics are stories of effort, perseverance, and quiet determination. Several students overcame personal challenges during their two-year course and, with guidance from staff, completed the programme successfully and went on to their university of choice. For us, these individual journeys are just as meaningful as the highest grades.

Among the academic highlights, one student achieved an impressive **41 points out of 45**, placing them within the **top 5% of IB candidates worldwide**. It is a remarkable achievement and one that inspires others to aim high.

Our A-Level students also enjoyed success, with every student achieving the results needed to move on to their chosen universities.

At IGCSE level, results were again strong. The majority of students comfortably exceeded the minimum requirements for *ESO*, many gained nine IGCSE grades, and the average pass rate reached **80.4%** across all subjects. These achievements reflect steady progress and a solid foundation for future study.

This year's results remind us that success comes in many forms, from academic excellence and determination to personal growth and readiness for life beyond school. We are incredibly proud of all our students and look forward to seeing what they accomplish next.
